

# Year 10 Health & Social Care Overview

Unit	Duration (lessons)	Learning Objectives/Outcomes
Component number 2: Health and Social Care Services and Values	20	<p>The unit of work completed in Year 10. The Year 10 work will form part of the controlled assessment work for this unit.</p> <p>Providing good health and social care services is very important and a set of 'care values' exists to ensure this happens. Care values are important because they enable people who use health and social care services to get the care they need and to be protected from different sorts of harm.</p> <p>This component will give learners an understanding of health and social care services and will help develop skills in applying care values which are common across the sector.</p> <p>Learning aims            A - Understand the different types of health and social care services and barriers to accessing them            B - Demonstrate care values and review own practice.</p>
Component number 1: Human Lifespan Development	50	<p>In this component, learners will study how people grow and develop over the course of their life, from infancy to old age, this includes physical, intellectual, emotional and social development and the different factors that may affect them. An individual's development can be affected by major life events, such as marriage, parenthood or moving house, and you will learn about how people adapt to these changes as well as the types and sources of support that can help them.</p> <p>Learning aims            A - Understand human growth and development across life stages and the factors that affect it            B - Investigate how individuals deal with life events.</p>
