

Year 9 Health & Social Care Overview

Unit	Duration (lessons)	Learning Objectives/Outcomes
<p>Component number 2: Health and Social Care Services and Values</p>	<p>45</p>	<p>Providing good health and social care services is very important and a set of 'care values' exists to ensure this happens. Care values are important because they enable people who use health and social care services to get the care they need and to be protected from different sorts of harm.</p> <p>This component will give learners an understanding of health and social care services and will help develop skills in applying care values which are common across the sector.</p> <p>Learning aims A - Understand the different types of health and social care services and barriers to accessing them B - Demonstrate care values and review own practice.</p> <p>This is assessed via set of documents which are controlled assessment. This unit will be completed by Easter holidays.</p>
<p>Component number 1: Human Lifespan Development</p>	<p>25</p>	<p>In this component, learners will study how people grow and develop over the course of their life, from infancy to old age; this includes physical, intellectual, emotional and social development and the different factors that may affect them. An individual's development can be affected by major life events, such as marriage, parenthood or moving house and you will learn about how people adapt to these changes as well as the types and sources of support that can help them.</p> <p>Learning aims A - Understand human growth and development across life stages and the factors that affect it B - Investigate how individuals deal with life events.</p> <p>This is assessed via set of documents which are controlled assessment. This unit will be completed by Christmas holidays of year 10.</p>
