

# BYRCHALL HIGH SCHOOL

## Word Processing Policy for Access Arrangements 2022/2023

### Introduction

This policy on the use of word processors in examinations and assessments is reviewed and updated annually, early in the autumn term, on the publication of updated JCQ regulations and guidance contained in the publications Access Arrangements and Reasonable Adjustments and Instructions for conducting examinations.

References to 'AA' relate to JCQ Access Arrangements and Reasonable Adjustments 2022/23 and ICE to JCQ Instructions for conducting examinations 2022/23.

### Principles for using a word processor

Byrchall High School complies with JCQ Access Arrangements section 4 regulations as follows:

(AA 5.8.4)

A word processor cannot simply be granted to a candidate because he/she now wants to type rather than write in examinations or can work faster on a keyboard, or because he/she uses a laptop at home.

The use of a word processor must reflect the candidate's normal way of working within the centre; pupils are given laptops on entry to school and it soon becomes apparent if this is their chosen way of working or not. Pupils may also borrow them in lessons as needed from the SEN department.

Certain groups of learners will benefit from word processing becoming their standard way of working, and they are encouraged to use computers from entry to school. Those identified follow a touch typing program in year 7. For example, a candidate with:

- a learning difficulty which has a substantial and long term adverse effect on their ability to write legibly;
- a medical condition;
- a physical disability;
- a sensory impairment;
- planning and organisational problems when writing by hand;
- poor handwriting, in either speed or formation.

(Please be aware this list is not exhaustive).

A member of the centre's senior leadership team must produce a statement for inspection purposes which details the criteria the centre uses to award and allocate word processors for examinations. This policy is written by the SENCO Mrs Kate Sutton who is also a qualified assessor of access

arrangements and holds an Advanced Practitioner Certificate (APC) and has AMBDA status (Associate member of the British Dyslexia Association). The line manager of SEND is Mrs Hudson who is the Assistant Head teacher and as such she agrees to procedure and criteria used to identify the use of a word processor, as a member of the schools' leadership team.

The procedure is either route A or B:

Route A:

- Recommendation from professionals to use a laptop is often received, this is then trailed with the student to see if it is of benefit for them.
- If they have an IEP it forms part of their IEP.
- After internal examinations the need is reviewed each year it is in place.
- A typing and writing assessment is completed to show if there is a significant difference in quality of typing and handwriting for legibility and speed. If this is not clear, then a Detailed Assessment of Speed of Handwriting (DASH) assessment is completed.
- Comments are gathered from class teachers to identify if they support this as a way for the student to work.
- HOY is consulted to state that they are aware and agree with them being granted use fo a word processor for exams.
- Parents are informed.

Route B:

- Teachers of the student communicate their concerns with the SENCO around the students handwriting, either due to legibility or speed. A laptop is is then trailed with the student to see if it is of benefit for them.
- If they have an IEP it forms part of their IEP.
- After internal examinations the need is reviewed each year it is in place.
- A typing and writing assessment is completed to show if there is a significant difference in quality of typing and handwriting for legibility and speed. If this is not clear, then a Detailed Assessment of Speed of Handwriting (DASH) assessment is completed.
- Comments are gathered from class teachers to identify if they support this as a way for the student to work.
- HOY is consulted to state that they are aware and agree with them being granted use fo a word processor for exams.
- Parents are informed.

This procedure is agreed by Mrs Hudson.

(AA 4.2.1)

- Candidates with access to word processors are allowed to do so in order to remove barriers for disabled candidates which prevent them from being placed at a substantial disadvantage as a consequence of persistent and significant difficulties.
- The use of word processors is only permitted whilst ensuring that the integrity of the assessment is maintained, at the same time as providing access to assessments for a disabled candidate.

(AA 4.2.2)

- The use of a word processor is not granted where it will compromise the assessment objectives of the specification in question.

(AA 4.2.3)

- Candidates may not require the use of a word processor in each specification. As subjects and their methods of assessments may vary, leading to different demands of our candidates, the need for the use of a word processor is considered on a subject-by-subject basis.

(AA 4.2.4)

- The use of a word processor is agreed/processed at the start of the course. Candidates are subsequently aware that they will have the use of a word processor for examinations and controlled assessments/coursework.
- Candidates are aware that they will have the use of a word processor for examinations and controlled assessments/coursework.

(AA 4.2.5)

- The use of a word processor for candidates is only granted if it reflects the support given to the candidate as their 'normal way of working', which is defined as support:
  - in the classroom; or
  - working in small groups for reading and/or writing; or
  - literacy support lessons; or
  - literacy intervention strategies; and/or
  - in internal school tests and mock examinations
  - Mock examinations

### **The use of a word processor**

Byrchall High School complies with AA section 5 as follows:

(AA 5.8.1)

Provides a word processor with the spelling and grammar check facility/predictive text disabled (switched off).

- Only grants the use of a word processor to a candidate where it is their normal way of working (see 4.2.5 above) within the centre.
- Only grants the use of a word processor to a candidate if it is appropriate to their needs (for example, the quality of language significantly improves as a result of using a word processor due to problems with planning and organisation when writing by hand).

(AA 5.8.2)

- Provides access to word processors to candidates in controlled assessments or coursework components as standard practice unless prohibited by the specification.

(AA 5.8.3)

- Allows candidates to use a word processor in an examination to type certain questions, i.e. those requiring extended writing, and handwrite shorter answers.

- Are also aware that examinations which have a significant amount of writing, as well as those that place a greater demand on the need to organise thought and plan extended answers, are those where candidates will frequently need to type. Examinations which require more simplistic answers are often easier to handwrite within the answer booklet. The candidate avoids the difficulty of visually tracking between the question paper and screen.

(AA 5.8.4)

- In all cases, ensures that a word processor cover sheet (Form 4) is completed and attached to each candidate's typed script.
- Ensures in Functional Skills English (Reading and Writing components) the use of a word processor with the spell check facility switched on is permitted for all candidates.
- Does not simply grant the use of a word processor to a candidate because he/she prefers to type rather than write or can work faster on a keyboard, or because he/she uses a laptop at home.

### **Word processors and their programmes**

Byrchall High School complies with ICE page 34/35 instructions by ensuring:

- word processors are used as a type-writer, not as a database, although standard formatting software is acceptable
- word processors have been cleared of any previously stored data, as must any portable storage medium used
- an unauthorised memory stick is not permitted for use by a candidate
- where required, candidates are provided with a memory stick, which has been cleared of any previously stored data, by a nominated member of centre staff
- word processors are in good working order at the time of the examination
- word processors are accommodated in such a way that other candidates are not disturbed and cannot read the screen
- where a candidate using a word processor is accommodated separately, a separate invigilator is used
- word processors are either connected to a printer so that a script can be printed off, or have the facility to print from a portable storage medium
- documents are printed after the examination is over
- candidates are present to verify that the work printed is their own
- word processed scripts are attached to any answer booklet which contains some of the answers
- word processors are used to produce scripts under secure conditions, and if they are not then the centre is aware that they may be refused by the awarding body
- word processors are not used to perform skills which are being assessed
- word processors are not connected to an intranet or any other means of communication.
- candidates are not given access to other applications such as a calculator (where prohibited in the examination), spreadsheets etc when using a word processor
- graphic packages or computer aided design software is not included on a word processor unless permission has been given to use these

- predictive text software or an automatic spelling and grammar check is disabled unless the candidate has been permitted a scribe or is using voice recognition technology (the script must have a scribe cover sheet attached), or the awarding body's specification permits the use of automatic spell checking
- voice recognition technology is not included on word processors unless the candidate has permission to use a scribe or relevant software
- word processors are not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe

### **Laptops, Tablets and Word Processors**

Byrchall High School further complies with ICE page 29/30 instructions by ensuring:

- the battery capacity of all laptops and/or tablets is checked before the candidate's examination(s) with the battery sufficiently charged for the entire duration of the examination
- candidates with fully charged laptops or tablets are accommodated within our examination rooms without the need for separate invigilation and power points
- candidates are reminded that their centre number, candidate number and the unit/component code must appear on each page as a header or footer
- candidates using Notepad or Wordpad software (which do not allow for the insertion of a header or footer) are instructed to handwrite their details as a header or footer once they have finished the examination and printed off their typed script; candidates are also supervised to ensure that they are solely performing this task and not re-reading their answers or amending their work in any way
- each page is appropriately numbered.
- candidates are instructed to use a minimum 12pt font and double spacing
- invigilators remind candidates to save their work at regular intervals
- it is possible to set up 'autosave' onto each laptop/tablet
- candidates granted the use of a word processor are present at the end of the examination when their script is printed off so they can verify that the work printed off is their own.

### **Accommodating word processors in examinations**

The use of word processors is internally accommodated in the following manner:

- The SENCO books laptops or computer rooms to be used from the technical department for internal and external assessments. These are carried out in a specific room separate to the examination main hall.

Invigilation arrangements relating to the use of word processors include the following:

- Invigilation is carried out by trained teaching assistants in the SEN department and they follow the recommendations by the JCQ. They are updated of changes each Autumn term from the exams officer and SENCO.
